Dmitro Stekhov

Frontend Developer

I am a Front-End developer looking for a full-time position in a company that`s aimed at making both everyday life and business easier, more productive and user-friendly. I am a fast learner and can work in a team. I always get things done. I'm not afraid to ask questions. I know how to listen to the advice of experienced people. Any difficult task does not cause me panic, I react to it as a new challenge.
